Daniela is undeniable. She is the spark, torchbearer, and firestarter with **25 years of NYC dance music lineage** in her DNA, crafting **emotionally driven, cinematic journeys** that move audiences through tension, release, and expansive states. Her musical style defies any single genre — rooted in emotionally powerful storytelling, it weaves progressive depth, tribal pulse, melodic tension, and unexpected classics into soulful, high-impact sets designed for **catharsis and connection**. Whether playing 90 minutes or seven hours, she crafts sets that feel both collective and deeply personal, blending shadow, euphoria, and cosmic depth. From beach stages and jungle altars to open-air gatherings in Brooklyn and Miami, her marathon sunrise performances have earned her the moniker "**Sunrise Queen**".

In 2025, Daniela was commissioned by the **Mütter Museum in Philadelphia** to perform a four-hour immersive Halloween event as DJ, performance artist, and creative director. A cornerstone of the scene, she founded **Deep Playa NYC** in 2020, producing 50+ events for crowds up to 1,200, created the **all-female platform Her Name Is Shakti**, and served as **Music Director and stage designer for CAMP Festival** across four consecutive years. She has shared stages with **Blessed Madonna and Blond:ish at Elements Festival**, and has been a fixture at Burning Man since 2012. Her signature sound was shaped on the floors of **Limelight, Twilo, Sound Factory, Vinyl, The Tunnel, and David Mancuso's Loft parties**.
